

Technical Data Sheet

CARBURETTOR CLEANER

Technical Information

Means for cleaning the internal and external surfaces of the carburetor, jets, intake valves, throttles and throttle valves from soot, paraffin deposits, oil residues. Prevents the formation of new deposits. Allows cleaning the carburetor without disassembling it. Restores idling speed and performance of the solenoid valve. Improves engine traction and optimizes fuel consumption. Contains substances that provide lubrication to the moving parts of the carburetor. Powerful injection allows the product to carry out high-quality cleaning, penetrating into remote and hard-to-reach places.

Quality & properties

Removes deposits
High dissolving properties
Filled with CO₂ propellant

Physical & chemical data

Content: 500 ml

Base: organic solvents

Color : Colorless to black oily liquid

Properties: cleaning

Viscosity 20 (±2)°C : no more 500 cPs

Density at 15 (±2)°C: 1,1 g/cm³

How to use

Before use, carefully read the directions on the packaging and act accordingly.

Before use, shake the aerosol.

Switch of the engine and allow to cool down. Remove the air filter.

Spray the exterior of the carburettor until the contamination has disappeared.

Spray the visible parts of the interior of the carburettor and allow to take effect.

Start the engine and let idle with very limited speed. Spray the carburettor cleaner several times at the air inlet and increase the speed of the engine. Switch the engine off and install the air filter.

Conditions of storage and transportation of products: Products are transported by any ground mode of transport in compliance with the rules of cargo transportation. Products in packaged form must be stored in premises that protect products from chemical influences and mechanical damage at a temperature not lower than minus 20C and not higher than plus 40C.

Stability during storage: 5 years from the date of manufacture. The date of manufacture is indicated on the bottom of the aerosol.

Regulatory and legislative information

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).
