

Technical Information

Special lubricant with a high content of copper to prevent wear, seizing, and sticking of threaded connections subjected to high temperatures. Protects steel, cast iron, copper, and brass from wear and oxidation. Speeds up assembly and significantly facilitates disassembly. Lubricates threaded, flanged connections of the car, spark plugs, studs and hubs, pins, and components of the exhaust system. Lubricant is resistant to the effects of water, road reagents, salts, and alkalis.

Quality & properties

Operating temperature range: from -30°C to +1100°C

High adhesion power

Provides easy dismantling

Corrosion preventive

Prevents wear and sticking

Physical & chemical data

Content: 500 ml

Base: Synthetic

Color : copper

Properties: anti-corrosive/ anti-oxidizing

Viscosity 20 (±2)°C : no more 500 cPs

Density at 15 (±2)°C: 0,96 g/cm³

How to use

To prepare the surface: clean the surface from old lubricants, dirt, dust and degrease.

Before use, shake the can 1-2 min.

Apply the product at any angle to the surface.

The surface is ready for use instantly.

Conditions of storage and transportation of products: Products are transported by any ground mode of transport in compliance with the rules of cargo transportation. Products in packaged form must be stored in premises that protect products from chemical influences and mechanical damage at a temperature not lower than minus 20C and not higher than plus 40C.

Stability during storage: 5 years from the date of manufacture. The date of manufacture is indicated on the bottom of the aerosol.

Regulatory and legislative information

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).
